II. *Mining and Reclamation*

1. Was there any mine related activity during the past year? Yes ☒ No ☐
2. If no - what was the last year of activity? _____
3. If yes - how much ore or mineral was mined? Approximately 50 tons

4. Briefly describe the type of work performed, volume of material moved, and any new or additional surface disturbances that occurred during the past year.
Load large stones, approximately 50 tons, then
transported material to yard. In the event there
is a sale, we intend to continue mining this summer.
At this time, we plan to continue working in the area
that is already uncovered.
5. How much additional acreage was disturbed during the past year? none
6. How much acreage was reclaimed during the past year? none
7. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.
No reclamation work was done as we are continuing
to work in the area that is already disturbed.
8. What is the total disturbed acreage of entire project at years end? Approximately 2 acre
9. Briefly summarize any mining and/or reclamation plans for the upcoming year.
At this time we are approaching the markets for
this material. We have been unsuccessful in selling
the material, however, we do plan to remain in the 2
acre area if we do make a sale.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
